Graduate Study
Stony Brook University

If you are majoring in Meteorology, Physics, Mathematics, Chemistry, or Geological Sciences and seek an MS or PhD degree in one of the areas below:

Global Warming and Climate Change
Synoptic and Mesoscale Meteorology
Atmosphere-Ocean-Land Coupling
Climate Modeling and Prediction
Numerical Weather Forecasting
Isotope and Trace Gas Analysis
Satellite Remote Sensing
Planetary Atmospheres
Infrared Spectroscopy
Ozone Depletion

Your path to helping solve some of the world's most critical environmental problems is just a mouse click away. Please visit our web site and explore the opportunities.

Stony Brook is on Long Island about
50 miles east of New York City.

Our program offers full financial support to qualified students
